Customize your design by adding text or drawings to the white area below. The laser will cut around the dashed line so be sure to place your best artwork inside the white space!

Place your artwork onto the middle of the Glowforge bed and choose your hardwood blank. We'll take a picture of your artwork with the Glowforge camera and combine your customization with our template design.

Glowforge will engrave your artwork onto your hardwood blank, and then cut out your luggage tag. Don't forget to ask a Glowforge team member for your leather strap so you can attach your tag to your favourite case!
