- Cut out all the sections of your palace along the grey lines. You can ask an adult to help you. Be sure to cut carefully around the numbered tabs as you will use these to glue your palace together.
 - Fold your palace into shape along all the dotted lines.
 - Once you have prepared the shape of your palace, you can glue the numbered tabs into place. Glue the buildings together too, according to the letters.
- If you finish the other games, you can access more parts of the palace to print out.
